COVID-19 resources etc!

real talk : there's so much to take in right now.

and we don't want to dilute what is out there. But folx have asked, so here's some of what we've been in tune with. COVID-related resources, mutual aid networks, and ways to take action if you're interested/able based in NY's Hudson Valley. Monumental shouts to those putting these things together.

See and appreciate you hard.
